

THE GRAND GATHERING CONFERENCE

DALLAS TX ... JUNE 13-16, 2018
KEYNOTE SPEAKER ... GW HARDIN

A CLARION CALL FROM THE ANGELS, FOR US TO GATHER AND CO-CREATE A WONDROUS WORLD.

KEYNOTE ADDRESS: "The Secret Tree of Life, As Revealed in the Latest from Quantum Physics" ... Science is being shaken by the latest Theory of Everything proving how we are the authors of reality. So what are we going to do about this discovery? This is about us.

GW Hardin will give details as to why we are stepping into the greatest moment in human history, and why the angelic realm is joining us in this moment. Why are the angels calling forth the 10 Gatekeepers to open the secret of the Tree of Life — the Daat? Why are you feeling that life around you is not as it seems? That the chaos is a distraction from something far greater? It's because the greatest forces of Evil have met the greatest forces of Good, and nothing will ever be the same again. Because you have a say in how our world will look, this call to the Grand Gathering is a magnificent opportunity for setting the miraculous into place for all time.

WORKSHOP: "The God-Geometry Part 3 — The Seat of Mercy ... A Tool for Self-Healing & Self-Enlightenment" ... Increasingly, scientists are discovering that all life is geometry. But what does this mean? Is geometry God? Or God geometry? Or is there some hidden secret in geometric patterns that are the Hand-of-God within us? The answer to these questions gives us the capacity to live our lives as the miraculous humans we are.

You will experience the following:

1. The latest in physics: We are the authors of reality. Consciousness is no longer debatable.
2. We are miraculous ... get used to it!
3. What happens when angels and humans join in Harmony to manifest change.

After the presentation you will be invited to sit in the Seat of Mercy to discover the depths of your own harmony, which will allow you to move out of your own chaos and into healing choices.
